ABOUT VELAQO

VELAQO LIMITED works with corporate and industrial buyers on handling, storage and packaging requirements. Clear model references, practical specifications and sample approval guide each enquiry.

Standard 80 L order format shown. Final external dimensions, capacity, colour and lid configuration are confirmed in the written quotation.

Specify. Confirm. Move.

A clear requirement leads to a clear quotation.

UNDERSTAND PALLET LOAD CONDITIONS

STATIC

The pallet rests on a flat, fully supporting surface.

DYNAMIC

The pallet is lifted and moved with compatible equipment.

RACKING

The pallet is supported on rack beams; span and support conditions matter.

Load ratings are model- and application-specific. Request written data for the actual load, handling equipment and support conditions.

THREE STEPS TO A QUOTATION

01 **CHOOSE** — Select the model code and quantity.

02 **DESCRIBE** — Share goods, load, equipment and delivery location.

03 **CONFIRM** — Agree the specification, sample, price and delivery terms.
